

# Model Rot

and how to cope with it

Laurel Ruhlen  
Data Scientist @ Braintree

What is this and why  
do we care?

In the beginning...

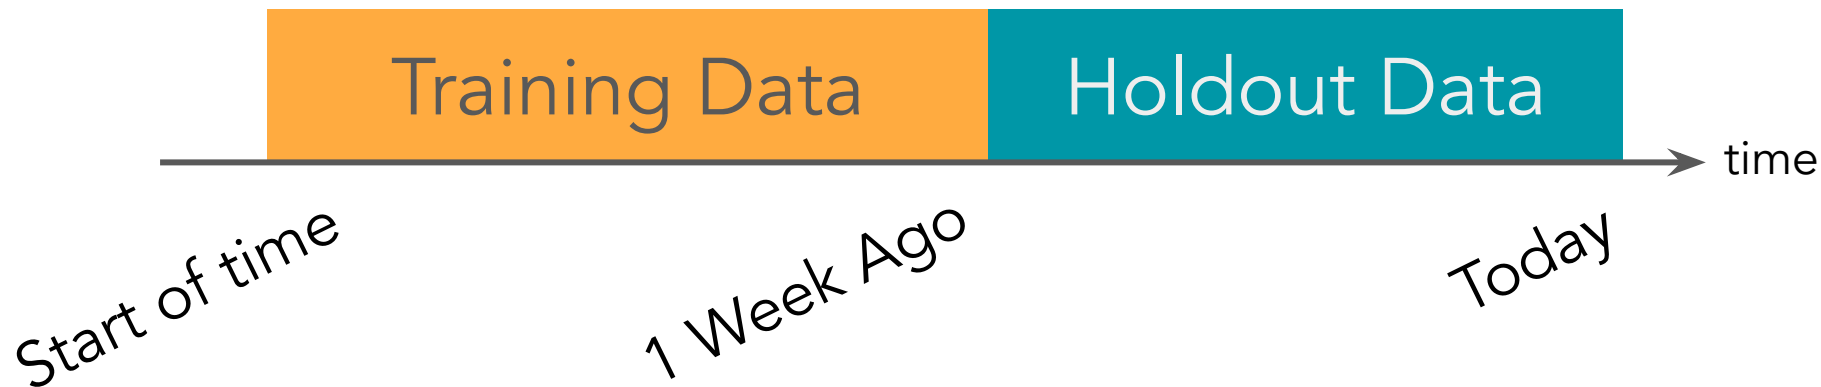

And it was good!

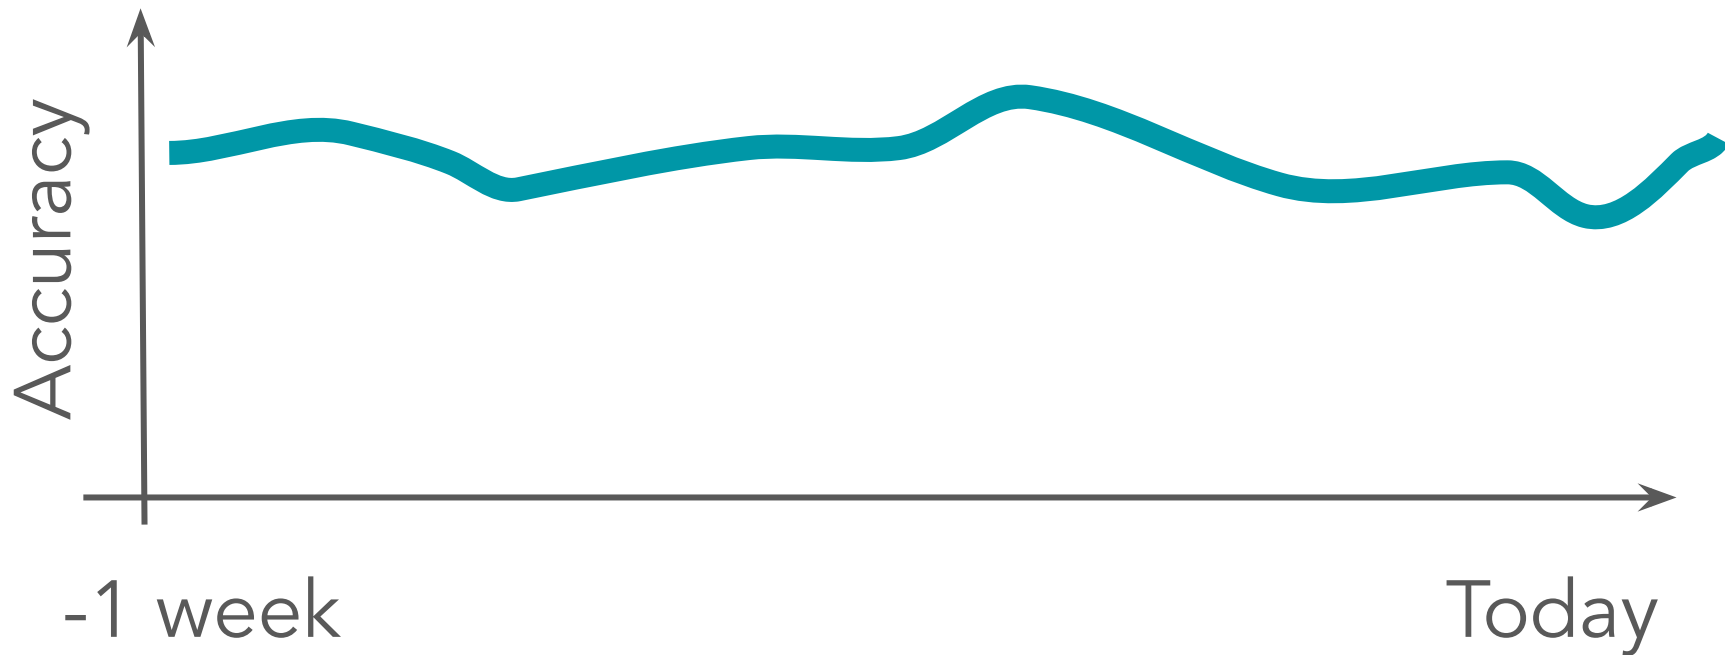

But then...

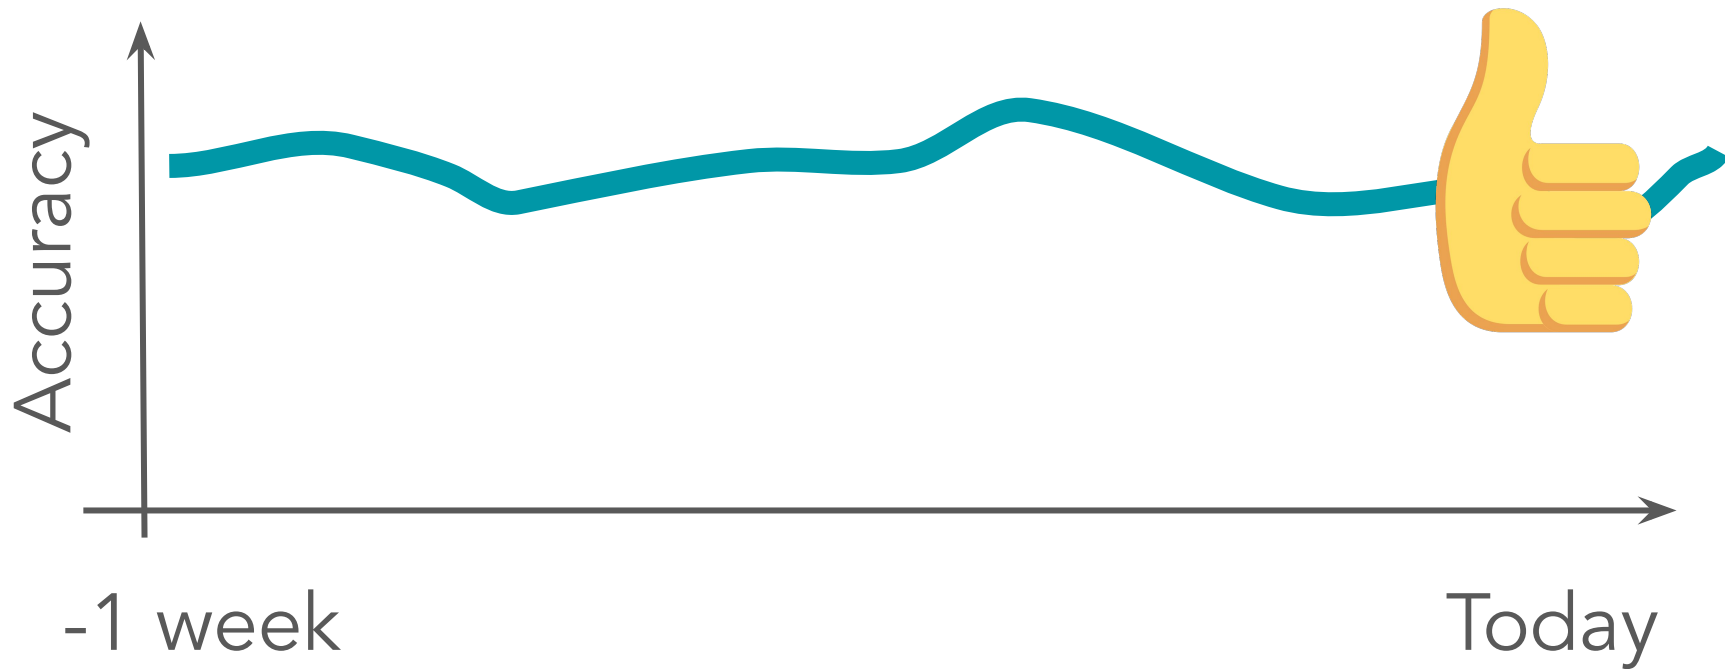

Coping: Estimate model's shelf life

Coping: Estimate model's shelf life

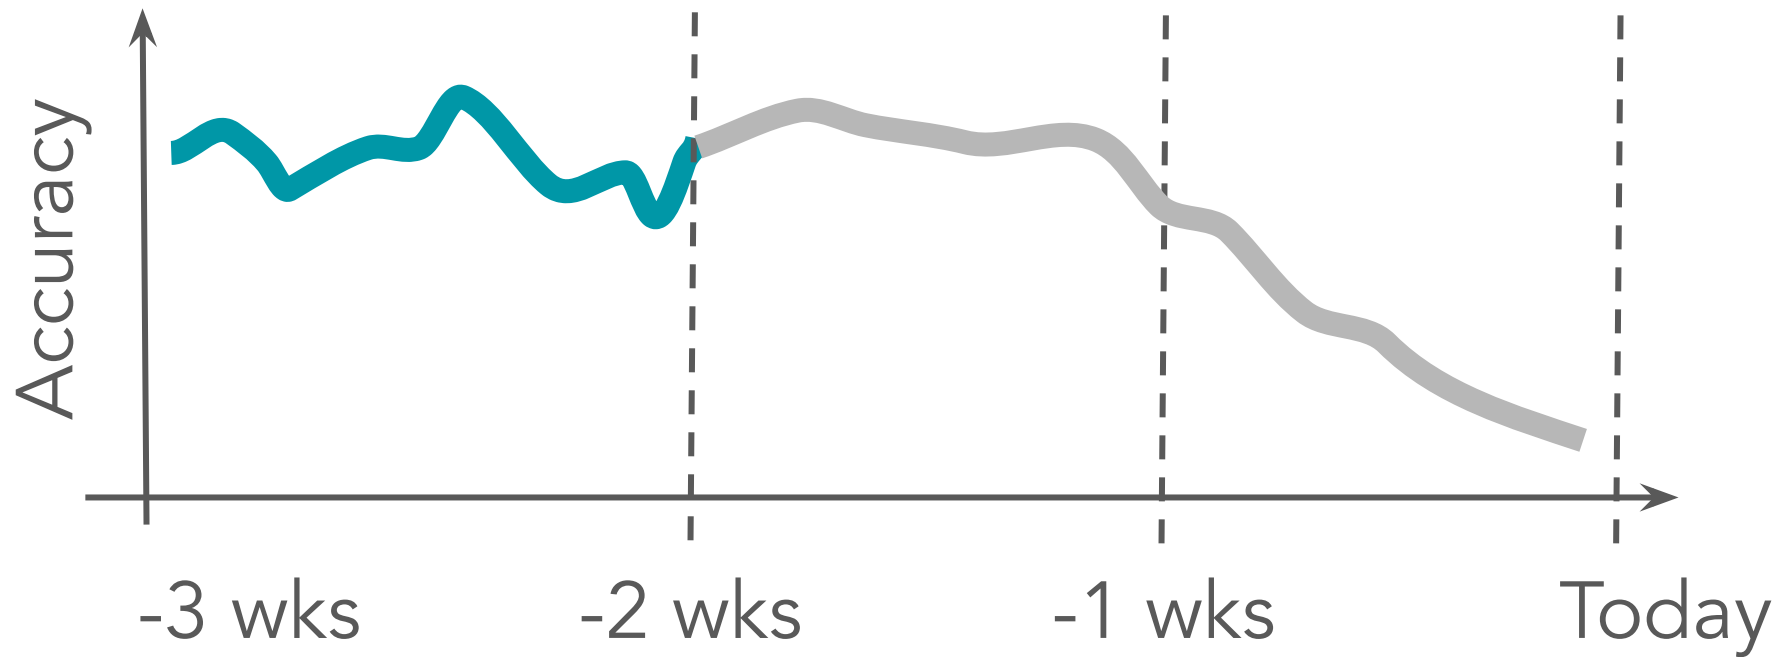

Coping: Estimate model's shelf life

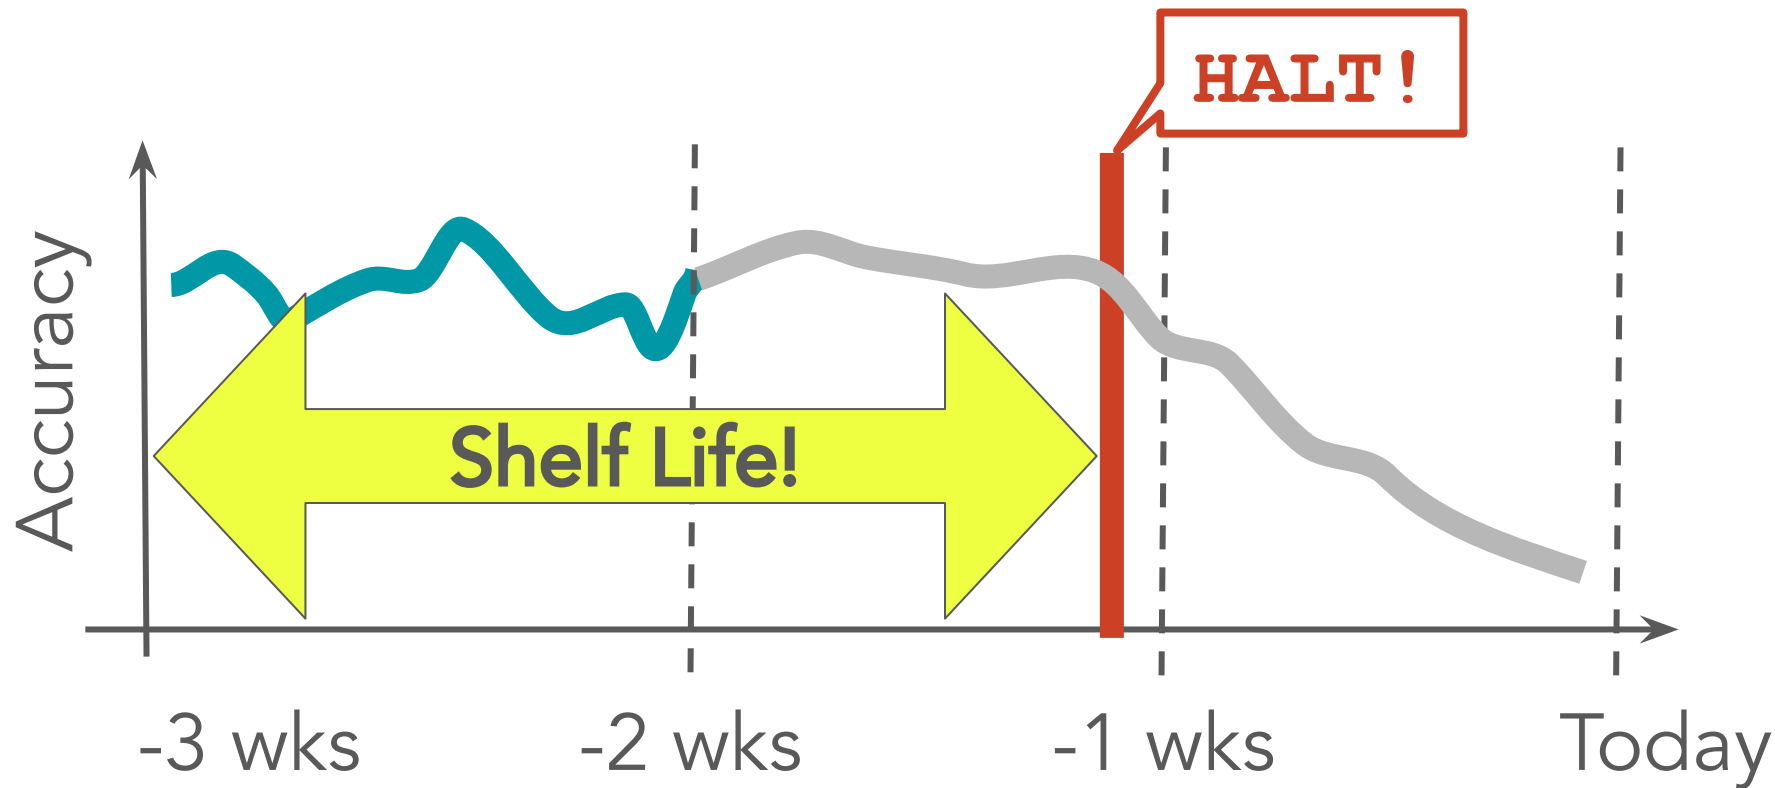

Coping: Estimate model's shelf life

Coping: Estimate model's shelf life

**Find shelf life; avoid wolves.**
